It skipped around over the baseball field like a powerful bug, and
went up or down vertically. But
then it did something I wouldn't
have beheved possible even for a
helicopter—it left Fair park by the
rondway. You know how many
trees the park has, yet the helicopter was trindled over the rondway and out to Park Drive—renunding you that when its long
two-bladed rotor is turned parallel
with the fuselage the craft isn't
much wider than a car.

Small boys in the southwestern part of Hope got a real sensation this morning when they found the helicopter parked on a vacant let next door to A. D. Middlebrooks' house—and saw it take off this morning... straight up! Only catch in the sales prospectus

for helicopters — they're \$25,000 But privately I know another eatch—they're tough to Liy, requiring special training of even the best airplane pilots.

But a helicopter will do every:

but a helicopter will do every-thing you've heard it will do—and that alone is a magnificent triumon for American aviation. It'll not only take off from a handkerchief, but after the pilot's in the air ho can reach out and take the hand-kerchief with him!

Those peculiar maneuvers you see Hope automobile owners go-ing through downtown just after ing through downtown just after the police have gotten through marking perked cars is explained this way: The drivers have their cars out in the street backing up and going forward and then backing up again, trying, like a dozwiping his feet, to get rid of the tellfale mark on the left rear tire. I didn't get a good wipe this membing and it cost me a dollar.

'Show of Force' in Berlin Could Mushroom Into War By JAMES THRASHER

There is something maurbing about the number of newspaper storics on the Berlin crisis datelined Berlin, Frankfurt, Paris and Lon-don, and the few stories on the same subject datelined Washington There is also something disturbing about the abundance of statements by high Army brass in Germany, and the scarcity of statements by President Truman and Secretary Mayerall With the dispatch of the first

notes to Moscow by the western powers, the Berlin situation ceased to be a local issue and became one of top government policy -

Such an impression is undoubtedly wrong. Yet the Army newspaper tified American officials the other in Berlin and the action of the day as saying that "the only way American troops and personnel in day as saying that "the only way America to determine Soviet intentions is to Berin. test Russia and the only test is a 'show of force.' "

A show of force might be simple, but it is quite plain that it could also be dangerous. All it would take would be one trigger-happy soldier

Britt Will Dedicate Stadium

Little Rock, July 23 (P)— A former University of Arkansos football player who won the Congressional Medal of Honor in World War Two will be the principal speaker at the dedication of the new Arkansas War Memorial Stadium here. McMath condemns continuation of the present "Pay-As-You-Go-To-Ruin" Highway "Plan" which promises increased taxes and roads in 1972, after, our \$250,000,000 road system is destroyed.

McMath condemns the brutal, startling proposal that we rob our educational, old age, institutional and welfare funds to build roads.

McMath PROPOSES the construction of \$80, 000,000 worth of roads NOW (by a program of conservative borrowing) if the people vote to secure sufficient money to match federal funds.

WHY DOES THE OPPOSITION FEAR A VOTE BY THE PEOPLE?

EDUCATION -

McMath proposes to use existing surpluses in welfare funds to increase old age pensions to the national level-more than double present pittance. McMath proposes to use existing surpluses in the welfare funds to improve and enlarge our welfare services, not to build roads.

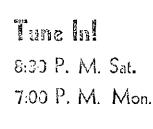

FAR FARM FUEL TAXES -

McMath proposes to reduce the tax on fuels used on the farm to two cents per gallon. He pladges real, legal tax relief, not empty promises.

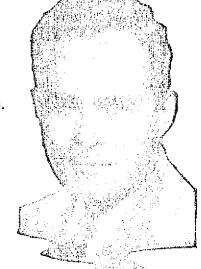

CLEAN ELECTIONS -

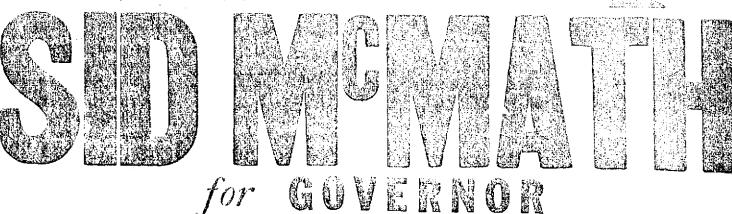

McMath PROPOSES election laws which will guarantee free and honest elections to free Arkansons. Free states don't want to be dictated to by the federal government; free men don't want to be dictated to by self-important politicians.
